

DRAKENSBERG GROWING MASH

Product Info

Expertly designed and formulated Growing Feed to simplify feeding of mixed flocks with natural, balanced nutrition for strong and healthy chickens. It contains a proprietary blend of nutrients to naturally support the immune system and overall health of the bird. It provides support to excel chicken growth from chick to adult. It is formulated for ease of feeding in mixed flocks even with multiple poultry species, including layers and broilers. It comes in pelleted form to encourage feeding from the ground and to help reduce waste. This is fed from 6 weeks to 18 weeks. Typically 15 to 16% Protein
